

# Möckeln runt, 30 km

All Karlskoga's cycling routes start at Alfred Nobel's Torg and are marked with blue signs with a bicycle.

There is a lot to see when cycling around lake Möckeln. First you pass Näset and continue past the Aggerud old homestead museum. Then you cycle past Storängen's trading area. After another 500 meters you will arrive at Espenäs. Turn left if you want to take a swim.

Continue on a paved bike path to Degerfors and you will pass Degernäs beach and the golf course. Go down to Hästhagen and along Letälven. On the right side you will see Stora Valla football arena before crossing the bridge and cycle on a cyclepath to Bruksvägen. After a bit, you will arrive at a resting stop called Idyllen on your left. Benches invites you to a break.

Next stop will be at Möllebadet. A few kilometers later you will arrive at Degerfors homestead museum-Knutsbol. Go a few kilometers further and you will arrive at Labbsand beach.

Continue on road 555 and you will reach the golf course in Karlskoga and Valåsen's sawmill.

After passing the sawmill, turn right to Nedre Älvgårdsvägen, then under E18 and cross Svartälven, turn down under the bridge and cycle along the river. On the small cycle path, turn right and arrive in a residential area. After that you reach Sandviksbadet and Backa beach. Follow the blue signs to the center of Karlskoga.

Make a stop at "Idyllen" for a short rest.
